

STAT 477/577

Bayesian Analysis

Spring 2009

Professor: Ronald Christensen

Office: 464 Humanities Building

e-mail: fletcher@stat.unm.edu

web: www.stat.unm.edu/~fletcher (Click on course title under teaching.)

Phone: 277-4619

Office Hours: M, W, F, 11:00-11:50 and by appointment.

Text: The .pdf files for the book are available on the course web site.

Prerequisites: Formally, Stat 561 and (527 or 540). The primary prerequisite is not to be afraid of multiple integrals. We will talk about them a lot, but rarely need to compute them.

Material: We will start at the beginning of the book and get as far as we can. We will probably need to cover appendix b early (but not appendix a).

Grading: Grading will be based on some combination of quizzes, exams, and homework. Grading for graduate students and undergraduates will be separate.

Time: M, W, F, 1:00-1:50

Location: SSCO 3030
